March 1, 2016

The fourth annual, New Mexico Aviation Aerospace Career Expo is ready for take-off! This STEM/educational/diversity outreach event, targets young adults ages 12-21. With focus on science, technology, engineering and mathematics (STEM) we will promote career opportunities in the aviation aerospace industry. The date for the event is Thursday, October 6th, 9 am to 3 pm on the Holloman Air Force Base, in Alamogordo, NM.

Our mission is to educate and motivate! Our goal is to provide the necessary outreach to each attendee to help them better understand not only the aviation aerospace industry in New Mexico, but what they will have to do to better prepare themselves academically to pursue a challenging career in industry or the military. Please visit our web site at www.NMAAA.net to see event videos and picture from previous year events.

I would like to invite your organization to partner with us by being a sponsor of the 4th Annual Aviation Aerospace Career Expo. 100% of your contribution will directly support the event by providing logistics and transportation to the event.

Over the last three years we have built a successful event with over 1,750 students attending last year alone! We had the potential to surpass 2,400 students; however we could not support all the transportation requests.

We need your financial support to help maximize attendance and give the youth of New Mexico (our future workforce) an opportunity to excel.

The diverse culture in New Mexico has been well represented. We have averaged 35 public schools, 6 charter schools, 3 Native American schools and numerous home schooled students each year. Based on the interest level and awareness of our program, we are projecting student attendance to be between 2000 and 3000. The event plan and displays are geared to accommodate up to 3000 people in attendance.

Please accept our request for an opportunity to sponsor America's largest aviation career day! The New Mexico Aviation and Aerospace Association is a 501(c) (6) non-profit organization and your donations are tax deductible under IRS rules.

We can be contacted via email at president@nmaaa.net or bill.shuert@sandia.aero
